Professional Summary

Full Stack Developer with hands-on experience in React.js, Node.js, Express.js, and MongoDB. Proficient in Java, C++, Python, and DSA. Proven ability to build scalable web applications with 20% performance improvements. Oracle Certified Java Developer with AWS and Google Cloud certifications. Strong problem-solving skills with experience in JWT authentication, RESTful APIs, and cloud deployment.

Technical Skills

Programming Languages: Java, C++, C, Python, JavaScript, PHP
Frontend: React.js, HTML5, CSS3, JavaScript ES6+, Bootstrap, jQuery, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.IO
Databases: MongoDB, MySQL, Database Design, CRUD Operations
Tools & Cloud: Git, GitHub, VS Code, Postman, AWS, Google Cloud, Vercel, Render, CI/CD
Core Skills: Data Structures, Algorithms, OOP, Agile, Web Optimization, Cross-Browser Compatibility

Professional Experience

Frontend Development Intern June 2024 – August 2024
NIIT *On-Site*

- Optimized web application performance and cross-browser compatibility resulting in 20% reduction in page load time
- Developed responsive UI components using React.js, JavaScript, HTML5, and CSS3 following best practices
- Collaborated with senior developers in agile environment to maintain scalable frontend architecture

Projects

MediQ – Hospital Management System | *React.js, Node.js, Express.js, MongoDB, JWT* GitHub

- Developed full-stack hospital management system with secure JWT authentication and role-based access control
- Built RESTful APIs for OPD queue management, bed allocation, and medicine inventory using Node.js and Express.js
- Designed MongoDB database schema and deployed application using Vercel and Render with CI/CD pipeline

RoadResQ – Roadside Assistance Platform | *MERN Stack, Socket.IO, Leaflet, JWT* GitHub

- Built real-time roadside assistance platform with live chat using Socket.IO and WebSocket technology
- Integrated OpenStreetMap with Leaflet.js for real-time location tracking and geolocation services
- Implemented secure JWT authentication with role-based dashboards and deployed on cloud platforms

Real-Time Sales Streaming Pipeline | *Kafka, PostgreSQL, Python, Streamlit* GitHub

- Built an end-to-end real-time data engineering pipeline using **Kafka Producer–Consumer**, streaming continuous sales data into PostgreSQL.
- Designed a **real-time dashboard** with Streamlit that updates every 30 seconds, visualizing revenue, sales trends, top products, and live KPIs.
- Implemented automated data generation using Faker and ensured seamless ingestion through Kafka topics into a structured data warehouse.
- Created a clean folder architecture and documentation for deployment, scalability, and reproducibility of the pipeline.

Education

SRM University, Andhra Pradesh Expected: 2026
Bachelor of Technology in Computer Science and Engineering | GPA: 8.08/10 *Merit Scholarship: 85%*

Certifications

Oracle Certified Professional: Java SE 11 Developer | Oracle 2025

AWS Fundamentals Specialization | Amazon Web Services 2025

Google Cloud Platform - 15 Skill Badges | Cloud Computing & AI 2024

Achievements

Smart India Hackathon 2024 | Selected through competitive internal round 2024

Google Gen AI Study Jam | Completed hands-on training in Google Cloud AI tools 2024
